

4.1 PHOTOGRAPHIC RECORD - FOREST GATE

FOREST GATE

STAGE 1: The Zone of Influence indicated by the green boundary on the adjacent diagram is defined by Romford Road to the south along with the junction it forms with Woodgrange Road, Earlhams Grove in the west, Forest Lane including the junction with Field road, Clinton Road in the north, Chestnut Avenue leading to Wanstead Park Overground Station at the junction with Woodgrange Road and Crammer Road to the east.

STAGE 2: The area identified in blue will be designed to RIBA Stage C. The study area includes the length of Woodgrange Road and junctions with roads running in the east-west direction, sections of Earlhams Grove, Forest Lane and Forest Street including the smaller alleyways linking some of them and Woodgrange Road leading up to Wanstead Park Overground Station and its junction with Sebert Road.

STAGE 3: The red line boundary defines the Core Study Area to be designed up to RIBA Stage D. The design proposals for Forest Gate will be developed closely with the significant station improvements being undertaken by the Network Rail team.
